## Western Digital WD TV Live HD Network Media Player

£102.16 £99.99

You Save: £2.17

**Full-HD video playback and navigation - up to 1080p** - This is the real thing; Full-HD 1080p playback. Sit back and enjoy the spectacular picture quality of brilliant high definition video and the crystal-clear sound of digital audio. Use the included remote control to make your entertainment choices using our crisp, animated navigation menus.

**Play a wide variety of file formats** - WD TV Live supports a wide variety of the most popular file formats. No need to spend time transcoding.

**Play videos, music and photos from the Internet on your big screen TV** - Explore and watch YouTube videos and Flickr pictures on the big screen. Rock out to thousands of radio stations via Live365 and discover new music with Pandora radio.

**Access media files on your home network** - WD TV Live supports a direct Ethernet connection or an optional USB attached wireless connection to your home network. Click here to view compatible wireless-ready USB adapters.

**Turn your USB drive into an HD media player** - Play content from most popular USB drives, and digital cameras, camcorders, and portable media players that can be recognized as mass storage devices. Optimized for My Passport portable hard drives.

**Collect without limits** - There's no limit to the size of your media collection; just add more USB drives for more space.

**Play media seamlessly from multiple USB drives** - Two USB ports on the player let you connect multiple USB storage devices and access them simultaneously. Our media library feature collects the content on all the drives into one list sorted by media type.

**Transfer files easily** - Copy, move or delete files stored on a USB drive, a network drive, your camcorder, or a camera to the attached USB drive using the on-screen menus.

**Show photos and movies directly from your digital camera or video camera** - Works with digital cameras, digital video cameras, in fact, any digital imaging device that supports Picture Transfer Protocol.

### **Advanced navigation options**

- Thumbnail and list views - Browse your content by filename or by thumbnails of photos, album covers and movie cover art.
- Media library - This unique feature lets you view all your media by media type in one menu regardless of its location in folders or drives.
- You can view your content by categories such as genre, album, artist and date.
- Search - Search by genre, title, artist, filename or partial filename.

### **Photo viewing**

- Create custom slide shows with a variety of transitions and background music Zoom and pan
- Search by filename, partial filename, most recently viewed and date

### **Movie viewing**

- Fast forward, rewind, pause, zoom, and pan
- View subtitles

Search by filename, partial filename, most recently viewed and date
